

BAFOKENG KHOALI

Full-Stack & Mobile App Developer | Cybersecurity Educator | Software Engineer

Location: Maseru, Lesotho **Email:** khoalibafokeng6@gmail.com **Phone:** (+266) 6321 0786 / 5376 4723

GitHub: github.com/Baffy-s-Computer-Solution **Web:** career-connect-lesotho.web.app

PROFESSIONAL SUMMARY

Highly motivated, versatile, and accomplished full-stack and mobile application developer, IT tutor, and cybersecurity educator based in Maseru, Lesotho. Equipped with a strong academic foundation including a Bachelor of Science in Information Technology (Creative Technology) from Limkokwing University of Creative Technology and a Diploma in ICT from the Institute of Development Management. Demonstrates extensive expertise in backend engineering, cloud architecture, mobile development, and web application penetration testing. Committed to delivering scalable software solutions, building secure systems, and mentoring the next generation of technologists.

EDUCATION

Degree / Qualification	Institution	Years	Status
BSc in Information Technology (Creative Tech)	Limkokwing University of Creative Technology	2021-2025	CGPA: 3.13
Diploma in Information & Communication Technology	Institute of Development Management	2018-2020	CGPA: 2.92
High School Diploma	Sefika High School	2010-2014	Completed
Primary School Diploma	SDA Primary School	2004-2010	Completed

TECHNICAL SKILLS

Category	Skills / Tools
Programming Languages	Java, Python, C++, JavaScript, Dart, TypeScript
Frameworks & Tools	React, Flutter, React Native, Node.js, Express, Java Spring, Django, Flask, Tailwind CSS

AI & Machine Learning	TensorFlow, PyTorch, Scikit-learn, Classification, Regression, Clustering, NLP, Computer Vision, RAG Architectures, Vector Search
Cloud & DevOps	Docker, Kubernetes, AWS, Firebase, Supabase, Render, Hugging Face, Git/GitHub, Android Studio, VS Code
Cybersecurity & Networking	Kali Linux, Web Application Penetration Testing, Network Security, Linux Kernel Security, Vulnerability Assessment
Databases	PostgreSQL, MySQL, MongoDB, Firestore, Redis
IoT & Systems	Smart Device Integration, IoT Sensors, Embedded Systems, Real-Time Monitoring, Hardware Maintenance

PROFESSIONAL EXPERIENCE

Online Tech Tutor & Cybersecurity Educator

2023 - Present

- Delivered comprehensive programming, cybersecurity, and IT literacy tutorials through online platforms and one-on-one sessions.
- Educated users and students on privacy protection, secure coding standards, and safe online practices.
- Developed customized course materials, practical coding exercises, and automated Visual Studio Code setup guides using PowerShell.

IT Tutor (Private Tutoring)

2018 - Present

- Taught basic and intermediate programming concepts, web development architectures, and digital literacy skills.
- Mentored students to improve practical computing abilities, problem-solving confidence, and academic performance.
- Compiled academic lecture notes and structured rigorous assessment tests.

PROJECTS & PORTFOLIO

Project Name	Description & Technologies
Kali Linux Web Pen Test Scripts	Open-source security auditing and penetration testing script suite designed for web application vulnerability assessment. Repository: github.com/Baffys-Computer-Solution/kali-linux-web-pen-test-scripts
GatherNow Backend	

	Scalable backend server infrastructure supporting routing, user management, and real-time operations. Live deployment and repository hosted at github.com/Baffys-Computer-Solution/gathernow-backend
Career Connect Lesotho	Web-based platform connecting job seekers and employers across Lesotho with professional tools and profile management. Accessible at career-connect-lesotho.web.app
EasyGO Ride-Hailing System	Advanced ride-hailing and logistics platform featuring migration of database layers from Firebase Firestore to Supabase using PostgreSQL with Row-Level Security.
Smart Water Metering App	IoT and mobile application developed for WASCO enabling real-time water usage monitoring and automated meter readings.
Inventory Management System	Robust desktop software built with Java and MySQL for automated stock control, sales tracking, and comprehensive reporting.
Loan Prediction System	Machine learning predictive model built using Python and Scikit-learn to forecast loan approval outcomes and risk assessment.

HONORS AND AWARDS

Title	Year	Description
Final Year Project Acknowledgement	2025	Recognized for developing a Smart Water Metering System for WASCO (IoT + Mobile App).
Dean's List	2025	Achieved CGPA of 3.13+ for academic excellence in Information Technology.
IDM Performance Award	2020	Awarded for high performance in the Diploma in ICT program.
Computer Studies Achievement Award	2009	Earned distinction in early computing education.

PROFESSIONAL TRAINING & AFFILIATIONS

Program / Organization	Year	Description
BEDCO - Bacha Entrepreneurship Project	2025	Gained practical skills in entrepreneurship, business model development, startup management, and innovative IoT business ideation.
Basotho Enterprises Development Corporation (BEDCO)	Present	

Active professional affiliation focusing on enterprise growth and technological innovation in Lesotho.

LANGUAGES

Language	Proficiency
English	Advanced (Professional Working Proficiency)
Sesotho	Native (First Language)

INTERESTS & HOBBIES

Interest / Hobby	Description
Technology Trends	Passionate about artificial intelligence, machine learning developments, and blockchain technology exploration.
Sports	Active basketball and soccer player, emphasizing teamwork and physical fitness.
Music	Enthusiast who finds creativity and relaxation through various musical genres and playing the guitar.
Gaming & Linux Tinkering	Enjoys strategic games, open-source Linux customization, and hardware tinkering to challenge problem-solving skills.
Design	Interested in graphic design and digital media creation as a creative outlet.
